Milner Group is proud to endorse the Fair Care Alliance and their mission to ensure equitable access to healthcare across Vancouver Island. As a family owned and operated company that has served Vancouver Island for decades, we understand the importance of strong, accessible public health services to the wellbeing of our communities.

We have witnessed firsthand the growing strain placed on our healthcare system and the challenges residents face when trying to access timely, quality care. Particularly in rural and underserved areas. These issues don't just impact individuals. They affect families, workers, and the overall health of our Island economy.

This year, we were proud to partner with the Fair Care Alliance to host a public giveaway event at our facility, offering topsoil to 150 residents as a way to bring people together, spark conversation, and increase awareness around the importance of healthcare advocacy. Supporting this cause is not just a gesture, it's a responsibility we take seriously.

Milner Group stands with the Fair Care Alliance in calling for real solutions and meaningful investment in our healthcare system. We believe in the power of community-driven change, and we're committed to doing our part to build a healthier future for everyone on Vancouver Island.
